OBJECTIVE

A highly motivated App Developer with one year of professional experience, seeking challenging and exciting opportunities to leverage and enhance my technical skills in a dynamic work environment.

PROFESSIONAL EXPERIENCE

FLUTTER DEVELOPER, URBAN CULTURE (JULY 2023 - PRESENT)

Urban Culture provides home salon services through a client app, allowing customers to book services for beauticians to perform at home.

CLIENT APP: (Link)

Enhanced User Experience: Integrated a Slot API, improving booking processes and increasing user satisfaction by 30%.

Advanced Booking Capabilities: Integrated a new Booking API for seamless direct bookings, enhancing user experience.

Improved Navigation: Refined user flow with location-based features, enhancing usability.

Overhauled Authentication: Transformed the authentication system with APIs and introduced 'Login with TrueCaller', boosting user acquisition and retention by 20%.

PARTNER APP:

Streamlined Onboarding: Engineered the Partner Onboarding Feature for a seamless new partner experience, improving initial engagement and data collection.

Localization: Implemented language options (Hindi and English), enhancing accessibility for non-English speaking partners.

Leave Management System: Introduced a Leave Marking Feature, improving work-life balance and reducing turnover by 15%.

UI Enhancements: Conducted UI modifications for better navigability, responsiveness, and visual appeal, increasing user satisfaction and retention.

ADMIN PANEL:

Booking Rescheduling API: Developed an API for booking rescheduling, increasing platform adaptability and customer satisfaction.

Hub-Based Categorization: Introduced "Hubs" to categorize partners, optimizing earning potential and platform performance.

Cancel API: Integrated an API allowing booking cancellations, enhancing flexibility and customer service.

BACKEND:

Contributed to backend teams for creating and maintaining APIs, ensuring robust and maintainable infrastructure.

EDUCATION

B.Tech in Computer Science Engineering   (Aug 2020 - Apr 2024)
Arya Institute of Engineering Technology and Management, Jaipur

TECHNICAL SKILLS

Programming Languages: Dart, JavaScript, C, C++, HTML5, CSS3
Frameworks: Flutter, React Native, TailwindCSS, NodeJS
Tools: Firebase, Firestore, MongoDB, VS Code, Git, GitHub
CMS: Sanity

PROJECT

COFFEE CAFE APP: (Link)

Pre-Ordering System: Implemented a real-time coffee ordering feature, allowing users to place orders 15 minutes before arriving at the cafe.

Global Chat System: Created a global chat room for users to engage in conversations.

Personal Chat Option: Designed a feature for private conversations, enhancing user interaction.
